

**Assistant Professor**  
**University of Texas at San Antonio**  
**San Antonio, TX**

Position: Assistant Professor  
Organization: University of Texas at San Antonio  
Location: San Antonio, TX  
Deadline: 1-15-07

**Description:**

The Biomedical Engineering (BME) Department at the University of Texas at San Antonio invites applications for a tenure-track assistant professor position in biomechanics and/or all related fields. The BME Department is part of a Joint Program in Biomedical Engineering between UTSA and the University of Texas Health Science Center at San Antonio, located 8 miles away. The joint program currently offers Ph.D. degrees and has approval to offer M.S. degrees; an undergraduate program is being developed. Current areas of biomechanics research in the department include orthopaedic biomechanics, neuromuscular biomechanics and bioMEMS. Details on this new department and program as well as on UTSA can be found at <http://engineering.utsa.edu>. Responsibilities include research, teaching at the graduate and undergraduate levels, development of new courses, and service to the department, college, and University. The successful candidate will be expected to start in the fall of 2007 pending budget approval.

**Qualifications:**

Required qualifications for the position are a doctorate in biomedical engineering and/or closely related areas, with a focus on biomechanics, demonstrated ability to establish and conduct outstanding fundable research, and promise for excellent teaching. Applicants should submit a curriculum vita, a research statement, a teaching statement, and complete contact information for at least three references. Applicants who are not U.S. citizens must state their current visa and residency status. Omission of the aforementioned data will delay the review process.

**Contact:**

Chair, Faculty Search Committee  
Department of Biomedical Engineering  
1 UTSA Circle  
San Antonio, TX 78249
